

Program:

```
// program to generate fibonacci series up to n terms

// take input from the user
const number = parseInt(prompt('Enter the number of terms: '));
let n1 = 0, n2 = 1, nextTerm;

console.log('Fibonacci Series:');

for (let i = 1; i <= number; i++) {
  console.log(n1);
  nextTerm = n1 + n2;
  n1 = n2;
  n2 = nextTerm;
}
```

Output:

```
Enter the number of terms: 4
Fibonacci Series:
0
1
1
2
```
